

Technical Specifications

- 12 Digital inputs 24V DC, which can also be used for frequency counting (max. frequency: 150Hz)
- 8 Digital outputs (relays) 250V AC 5A, with $\cos\phi=1$, 30V DC 5A
- 4 Analogue inputs 0...10V DC or
4 Digital inputs 24V DC
- 4 Analogue outputs 0...10V DC, 20mA
- Power consumption c. 60mA at 24V DC (all relays open)
- Power consumption c. 130mA at 24V DC (all relays closed)
- Ambient temp. 0...50° C
- Protection IP20
