Loxone Panel

14.5 x 59 x 4 in / 368.3 x 1498.6 x 101.6 mm

by Shocker Automation

Item No: 500051

About the product:

The Loxone Panel* is designed to make the entire installation process efficient. It includes a removable back pan for preassembly, split cover for top and bottom, DIN rail space for components and advertising space for your company logo. It is designed specifically to conform with US and Canadian Certification Standards and proudly manufactured with US steel.

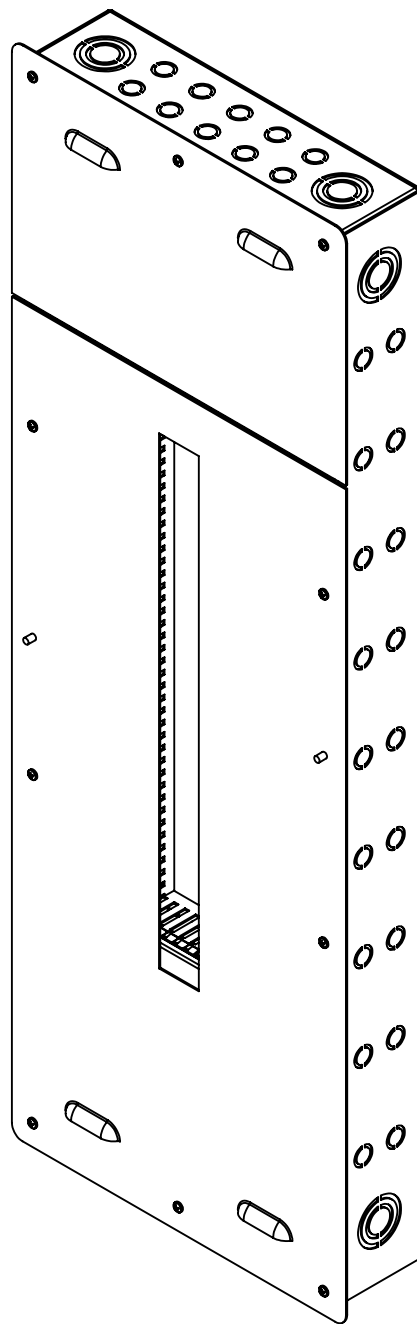

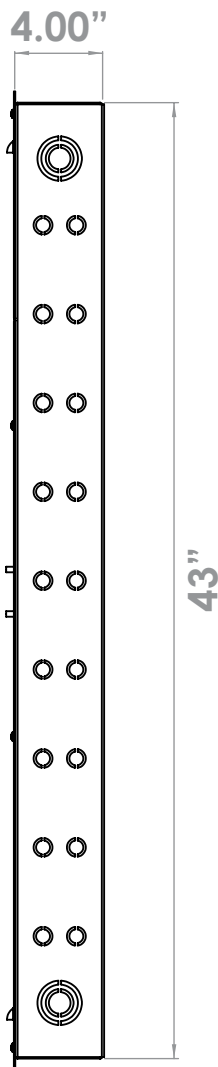

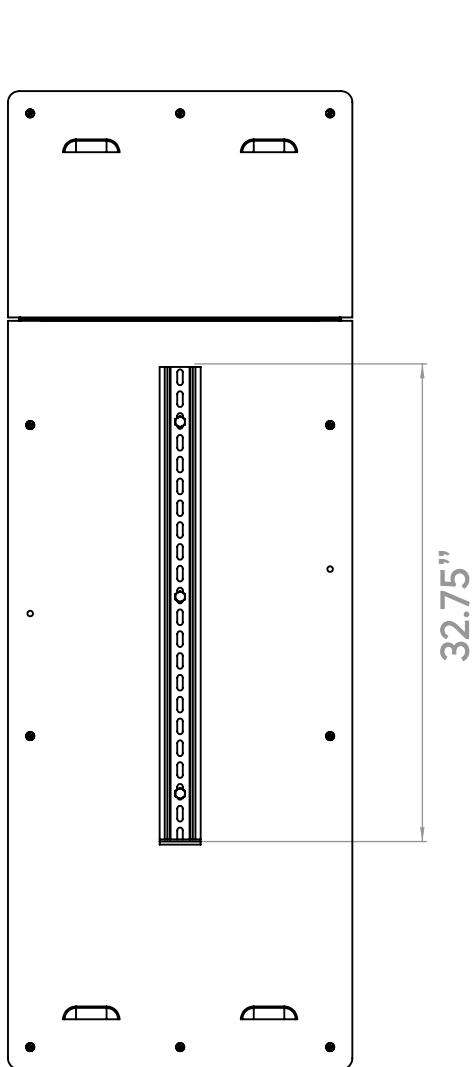

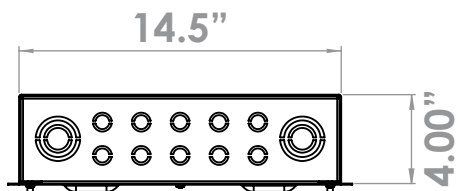

- Top cover: 110V termination blocks and electrician's area of the panel, includes acrylic insert for dealer's advertising
- Bottom cover: removal allows access to low-voltage components while top cover protects the worker from high-voltage components
- DIN rail space: 32.75" (830 mm) space for Loxone components & 2 x 12" (300mm) for additional components
- CSA rated for USA & Canada

*This is a third-party product and we can not offer additional dealer discounts.
